VERDANTIX RECOGNIZES E2 MANAGETECH'S FOCUS AND POTENTIAL Poised for Ambitious Growth, E2 is the only Dedicated EH&S Consulting Firm

LONG BEACH, CALIFORNIA – Verdantix's report highlights E2 ManageTech's (E2) aggressive growth strategy as the demand for professional environmental, health and safety management information systems (EHS MIS) consulting services takes a sharp upturn. As the report highlights, E2 has the proven tools, methodologies, and know-how to help industry leaders solve their toughest EHS and sustainability information management challenges. "As the only standalone consulting firm dedicated to providing IT and business services for the EH&S information market, E2 ManageTech is strongly positioned to execute its ambitious strategy for growth." Following growth of 38 percent in 2016, E2 is in the process of hiring strategic staff in preparation of 2017's business backlog.

Reporting on E2's new leadership, expansion of partner ecosystem and seizing the initiative in the marketplace, the full report is available to subscribers via the Verdantix website. (www.verdantix.com)

For nearly 20 years, E2 ManageTech has provided expertise at the intersection of information technology, program management and environmental, health and safety (EHS). E2 is the first and only laser-focused global EHS management information systems (MIS) solutions provider. Strategic governance, integration and implementation consulting designed to meet business objectives. EHS MIS made easier.
